

# Asia Pacific Symposium on Safety 2019

19-21 Sep 2019 Dalian, China

## Welcome

Asia Pacific Symposium on Safety 2019 (APSS2019) is to be held at Hi Chance Jian Guo hotel in Dalian, Liaoning, China from 19 to 21 Sep., 2019.

The APSS was inaugurated in Gyeongju, Korea in 1999 as the first international meeting on industrial safety covering Asia and Pacific region. Since then, except 2015, APSS has been successfully held in every two years, with more than 200 scientist and engineers of relevant academic areas attending each time.

In the coming APSS2019, the scope is to be expanded to include occupational health and other OSH related topics. We believe it is a good opportunity to exchange up-to-date knowledge in safety and health in workplace. All members of the organizing committee look forward to seeing you in Dalian.
